PROJECTS

BidMaster - Full Stack Auction and Bidding Web Application |

Nov 2025

- Engineered a production-ready full-stack web application with role-based access control (Bidder, Seller, Admin) secured via JWT authentication and password hashing, deployed on Vercel.
- Implemented real-time bid broadcasting using Socket.io, delivering instant updates across all connected clients with zero-page refresh, improving user engagement and platform responsiveness.
- Designed and developed 10+ RESTful API endpoints with Node.js and Express.js; structured MongoDB schema across 4 normalised collections with indexed fields for optimised query performance.
- Built a fully responsive React.js frontend with clean UI and seamless backend integration across all device sizes.

Tech: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, JavaScript, Vercel
Deployment: <https://project1-steel-ten.vercel.app/>

BirdNet - Freelance Client Project |

Dec 2025

- Independently delivered a complete production website for a real paying client, managing the full project lifecycle from requirements gathering and UI design to final deployment — demonstrating end-to-end ownership.
- Built a mobile-first responsive UI (HTML5, CSS3, JavaScript, Bootstrap) ensuring full compatibility across desktop, tablet, and mobile with structured pages to improve client's online visibility.
- Website is live and actively used by the client's business; integrated call-to-action sections driving measurable lead generation and customer inquiries.

Tech: HTML5, CSS3, JavaScript, Bootstrap
Deployment: <https://www.npbirdnet.com/>

Career Compass - AI-Powered Career Development Platform |

Apr 2024

- Built a complete web platform for AI-based career assessments, personalised roadmaps, job matching, and application tracking with multi-role access (User, HR, Admin).
- Integrated Google Gemini API to generate personalised career insights and skill-matched job recommendations based on 5+ dynamic user parameters — practical AI and API integration experience.
- Implemented secure authentication with password hashing, session management, and role-based access control; designed relational MySQL schema across 5+ tables with job-posting, search, bookmarking, and resume-upload modules.

Tech: PHP, MySQL, HTML5, JavaScript, Tailwind CSS, Google Gemini API, XAMPP
Deployment: <https://careercompass1.rf.gd/?i=1>
